Re: Accumulation of Processed Wastes
SWP 75-000-1435

Dear Mr. Peterson,

On August 18, 2011, Sam Faleh and I visited your site. The purpose of the visit was to determine how much processed and unprocessed waste was stored on site. The amount of the above materials on site was beyond the amount the current financial assurance. To comply with requirements of the issued permit the following must be achieved:

1. Reduce accumulated processed and unprocessed waste to the permitted amounts.
2. Remove the dirt and fines from behind the building.
3. Keep the waste on paved surfaces.
4. Stop accepting shingles until you remove the existing pile.

If the above is not accomplished within 30 days of the receipt of this letter, the financial insurance will be increased.

If you have any questions concerning this correspondence, please call me at 615-687-7100.

Sincerely,

Tom Golden
